

LLM #1- Chatgpt

Prompt -

Create a one-page professional resume using the following details: Name: Prince Audi Baldonado Email: pbaldonado@addu.edu.ph Phone: 09120983475 Education: BS Information Technology, Ateneo de Davao University, 2nd Year Skills: C++, HTML, Javascript, Python, Basic Web Development Projects/Experience: - Developed a simple portfolio website using HTML and JS - Created programs for academic exercises (number sorting, palindrome checker) Use a clean, modern, and professional format with clear section headings. Keep it concise and suitable for entry-level job applications.

Output –

PRINCE AUDI BALDONADO

 pbaldonado@addu.edu.ph |  0912 098 3475

EDUCATION

Bachelor of Science in Information Technology

Ateneo de Davao University — 2nd Year

SKILLS

- Programming: C++, Python, JavaScript
 - Web Development: HTML, Basic Web Development
 - Problem Solving and Logical Thinking
 - Basic UI/UX Awareness
-

PROJECTS & EXPERIENCE

Portfolio Website

- Developed a personal portfolio website using HTML and JavaScript
- Designed a clean and responsive layout to showcase projects and skills

Academic Programming Projects

- Created various C++ and Python programs for coursework, including:

- Number sorting applications
 - Palindrome checker
 - Applied fundamental programming concepts such as loops, conditionals, and arrays
-

ADDITIONAL INFORMATION

- Quick learner with strong attention to detail
 - Eager to apply technical skills in real-world projects
 - Interested in web development and software engineering opportunities
-

LLM #2 – Gemini

Prompt – Create a one-page professional resume using the following details: Name: Prince Audi Baldonado Email: pbaldonado@addu.edu.ph Phone: 09120983475 Education: BS Information Technology, Ateneo de Davao University, 2nd Year Skills: C++, HTML, Javascript, Python, Basic Web Development Projects/Experience: - Developed a simple portfolio website using HTML and JS - Created programs for academic exercises (number sorting, palindrome checker) Use a clean, modern, and professional format with clear section headings. Keep it concise and suitable for entry-level job applications.

PRINCE AUDI BALDONADO

Email: pbaldonado@addu.edu.ph • Phone: 09120983475 • Davao City, Philippines

PROFESSIONAL SUMMARY

A highly motivated 2nd-year Information Technology student with a strong foundation in programming and basic web development. Eager to apply academic knowledge to real-world projects and build hands-on experience in software development. A quick learner passionate about crafting clean code and innovative digital solutions.

EDUCATION

Bachelor of Science in Information Technology

Ateneo de Davao University — 2nd Year Student

TECHNICAL SKILLS

C++

Python

HTML

JavaScript

Basic Web Development

PROJECTS & ACADEMIC EXPERIENCE

Personal Portfolio Website

Independent Project

- Developed a clean, responsive personal portfolio website utilizing HTML and JavaScript to display projects and skills.
- Demonstrated fundamental understanding of front-end web structure, UI/UX principles, and interactive web elements.

Academic Programming Algorithms

Coursework Projects

- Designed and coded logic for essential data manipulation tasks, including dynamic number sorting algorithms.
- Implemented a robust palindrome checker, showcasing skills in string manipulation, iterations, and conditional logic.
- Utilized core programming concepts to solve academic challenges efficiently and correctly.

Criteria	Chatgpt	Gemini
Structure	Well-organized but more traditional (text-heavy sections)	Very well-structured with clear section separation and hierarchy
Clarity	Clear and easy to understand, but sometimes wordy	Very concise and easy to scan quickly
Formatting	Simple formatting (bullets, headings)	Modern, visually appealing layout with spacing and design elements
Professional Tone	Professional and formal	Professional but more polished and impactful
Overall Quality	Good for content and completeness	Excellent balance of design + content (more job-ready)

Reflection

In this activity, both LLMs were able to generate a professional resume, but Google Gemini performed better overall. Gemini produced a more visually appealing and well-structured resume, with clear section headings, proper spacing, and a modern layout that made the content easy to read. The output looked polished and closer to a real-world resume that could be submitted directly to employers. On the other hand, ChatGPT generated a resume with strong and detailed content, but the format was more text-heavy and required additional editing to improve its presentation.

One key difference I observed was in formatting and conciseness. Gemini focused more on clean design and readability, while ChatGPT emphasized completeness and detail. ChatGPT sometimes included longer descriptions, whereas Gemini presented information in a more concise and organized manner.

In my final resume, I combined the strengths of both outputs. I used Gemini's layout and structure for a clean and professional appearance, while incorporating ChatGPT's detailed descriptions to enhance the content. I also improved wording to make it more concise and impactful.

Through this activity, I learned that prompting plays a crucial role in the quality of AI-generated outputs. A clear and detailed prompt helps guide the AI to produce better results. I also realized that different LLMs have different strengths, so combining their outputs can lead to a more refined and high-quality final product.

Final Output:

PRINCE AUDI BALDONADO

pbaldonado@addu.edu.ph | 09120983475 | Davao City, Philippines

PROFESSIONAL SUMMARY

A motivated 2nd-year Bachelor of Science in Information Technology student with a strong foundation in programming and basic web development. Skilled in creating efficient, clean, and functional code, with hands-on experience in academic and personal projects. Eager to apply technical knowledge to real-world applications and continuously improve in software and web development.

EDUCATION

Bachelor of Science in Information Technology
Ateneo de Davao University — 2nd Year Student

TECHNICAL SKILLS

- **Programming Languages:** C++, Python, JavaScript
 - **Web Development:** HTML, Basic Web Development
 - **Core Skills:** Problem-Solving, Logical Thinking, Debugging
-

PROJECTS & ACADEMIC EXPERIENCE

Personal Portfolio Website (*Independent Project*)

- Developed a clean and responsive personal portfolio website using HTML and JavaScript to showcase projects and technical skills.
- Applied fundamental UI/UX principles to improve user experience and interface design.

Academic Programming Algorithms (*Coursework Projects*)

- Designed and implemented solutions for data manipulation tasks, including number sorting algorithms.
 - Built a palindrome checker demonstrating skills in string manipulation, loops, and conditional logic.
 - Applied core programming concepts to solve academic challenges efficiently and accurately.
-

ADDITIONAL INFORMATION

- Quick learner with strong attention to detail
- Passionate about software development and continuous learning
- Able to work independently and in team environments
